

Revit Addin: **Structure Picker** - Installation

1

Close any Revit Application

2

Go to J:\Drawings REVIT FAMILIES\07 Installers\Revit

3

Run the file: Revit 2022 - Structure Picker.bat

4

The message below must be shown for a completed installation

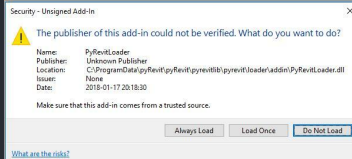

Message from AKoulousis 14/07/2022 11:32 X

Revit 2022: Structure Picker - Applied

OK

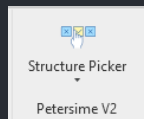

5

While you reopen Revit if a Publish message appears like the message below, press the button "Always Load"

6

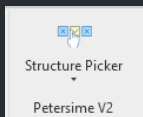

Press the Add-Ins Tab to see the new add-in

Revit Addin: **Structure Picker** - Instructions

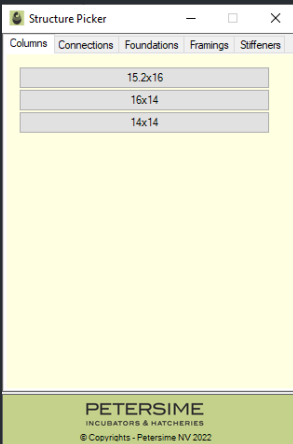

1

Press the Addin button "Structure Picker"

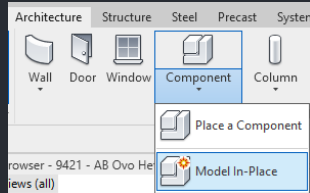

2

The Application below will open

3

Every tab is a structure family which is made from Architecture -> Component -> Model In-Place

4

All the elements that are loaded on every tab are the elements from the current View which you have opened while you ran the Application

5

Click on an element to select all the structures with the same name and click again to deselect
